## CHAPTER NEWSLETTER

July - September 2021

# *A Message from Your Chapter President*

### *Mission-Driven and Member-Focused*

Greetings, [ACHE of South Florida](#) members, supporters, and friends.

Even though the Delta variant derailed our ability to move forward with in-person events over the summer, it did not prevent us from continuing to offer virtual events that kept many of us connected and engaged. I am truly grateful for the members of the Board, volunteers, participants, and sponsors that continue to support this year's efforts of being *mission-driven and member-focused*.

Since the start of the year, our chapter has welcomed nearly 200 new members, 10 new Fellows and 1 Life Fellow. Several hundred members and supporters have participated in more than a dozen events, and we have grown our online presence and engagement to a new level. As I often say, nothing can replace a handshake or a hug, but operating virtually this year has eliminated geographical boundaries and South Florida's traffic challenges, drawing event attendees from throughout Florida, the U.S., and other countries. I am looking forward to connecting with all of you again face-to-face very soon.

Several weeks into the last quarter of the year, we have already held two excellent virtual face-to-face educational programs, with another scheduled for [November 17th](#). Please join us!

Check out the rest of this newsletter to learn about many of the activities that we hosted and members that we celebrated throughout the third quarter.

For the latest news, including upcoming [events](#), member and sponsor spotlights and much more, please bookmark our chapter's [website](#) and follow us on [LinkedIn](#)!

Sincerely,

Kenneth C. Wong, FACHE

## About ACHE of South Florida

ACHE of South Florida, known as the South Florida Healthcare Executive Forum (SFHEF) until 2020, is the local chapter of the American College of Healthcare Executives (ACHE). Its origins date back to 1972 and serves over one thousand healthcare executives, students, and supporters spanning seven counties throughout southeast Florida, from Monroe to the Treasure Coast.

The mission of ACHE and ACHE of South Florida (ACHE-SFL) is to advance our members and healthcare leadership excellence.

## Chapter Highlights

ACHE of South Florida  
An Independent Chapter of

American College of  
Healthcare Executives  
*for leaders who care®*

For the first time, ACHE of South Florida dedicated several activities to recognizing, celebrating, and connecting *ALL* of its Fellows. This was done through recognition on LinkedIn and the chapter's website, along with the first Fellows-only Networking Event. We also held the chapter's first Fellow Advancement and BOG Exam Informational Session, hosted by Paula Zalucki, FACHE, FACMPE.

I wish to extend my gratitude to President-Elect Oyinkansola "Bukky" Ogunrinde for her assistance with organizing these special activities. Thank you, as well, to the Board members and chapter members that attended.

## COVID-19 and the Supply Chain Challenge:

### What We Learned

September 18, 2021

## COVID-19 and the Supply Chain Challenge: What We Learned

The COVID-19 outbreak created a major increase in demand for commonly used supplies required to provide patient care, including personal protective equipment (gowns, gloves, masks), nasopharyngeal swabs, viral test kits, and ventilators.

This panel discussion will provide insight on what organizations were able to accomplish to protect employees and to optimize care delivery for patients and the community and discuss mitigation strategies moving forward.

Moderated by:

Nicklaus Children's  
Health System

### How long have you been a member of ACHE? ACHE of South Florida?

I joined in March of 2020 and received  
Fellow status in August of 2021.

### Why did you decide to join the organization?

I was encouraged to join ACHE by many  
of my colleagues. ACHE is an excellent  
platform which brings together a diverse  
group of healthcare leaders to network  
and share experiences. ACHE also  
offers excellent educational sessions  
and webinars that have helped me grow  
as a healthcare executive.

### As a physician, why did you pursue becoming a Fellow?

As a physician and as an administrator I found  
ACHE to be an excellent forum. It draws  
membership from both the clinical and  
non-clinical side of healthcare with a shared  
goal of improving the quality of healthcare  
and advancing healthcare leadership. In short  
ACHE has something for everyone no matter  
what part of healthcare you come from.

### Why would you encourage others, especially physicians, to join and pursue Fellowship?

I would encourage others especially physicians  
to join ACHE and pursue Fellowship. It has  
allowed me to gain the knowledge and skills  
needed to be an effective leader. My  
Fellowship journey helped solidify my  
understanding of the healthcare industry and  
its challenges. It also helped me improve my  
knowledge in a variety of different areas of  
healthcare management such as operations,  
finance and digital transformation just to  
name a few. In short, I feel that the Fellowship  
designation has helped me become a better  
leader, a better administrator and above all a  
better physician.

If you are exam-eligible, NOW is a GREAT time to schedule your BOG exam!

Take a look at the incentives that ACHE of South Florida and ACHE have in place for those  
that become Fellows before the end of *this* year!

## Thank You for Your Commitment to Service

Congratulations on achieving the 2021 American College of Healthcare Executives Recognition Program: Service Award.

The past 18 months have been a remarkable time in the history of our country—and an especially challenging time for all of us in healthcare. The work you continue to do in the face of a constantly changing COVID-19 landscape, continued challenges around race relations and helping our young people navigate returning to the physical classroom is incredibly important—and makes your unwavering commitment to advancing the field that much more impressive. I am honored to recognize your contributions to healthcare leadership excellence.

As always, we appreciate your commitment to volunteer service, the healthcare leadership profession, your chapter and ACHE. Your efforts to give back to our community are a hallmark of our organization.

Sincerely,

Carrie Owen Plietz, FACHE  
Chair, ACHE Board of Governors

"As a Fellow of the American College of Healthcare Executives (ACHE), I am constantly looking at the 'big picture' in healthcare to assist in meeting the needs of the underserved population in behavioral health. Managing a specialty hospital, ACHE pulls me out of my zone to see what's going on in healthcare in general, and gives me a better grasp of the overall industry. While the fellowship path was demanding, it was important to my mission of making a difference in behavioral health. It shows my commitment to my profession, my career, to ACHE and to continuing education moving forward."

"When I'm involved in an activity, I want to reach the highest level of certification/accreditation available, take an active role, and be engaged and involved. That's why, as a healthcare leader, I joined ACHE and later pursued and obtained the Fellow credential – board certification in healthcare leadership. I believe that the Fellow credential demonstrates my commitment to the profession. When others see it, they not only know that I am an advanced professional, but it also acts as a conversation piece. Talking about being a Fellow both encourages nonmembers to get involved, and helps remove some of the mystique behind earning board certification in healthcare leadership and the perceived barriers for members who might be considering it. While challenging to earn, becoming a FACHE is achievable and rewarding."
